# Exclusive 4D aroma spray ignites shopping desire

- Experience the strongest 4D smell can stimulate the sense of body to increase consumer desire.
- We can deliver the corresponding aroma for the advertising products, so the customers can smell the aroma first.
- Odor distance can reach up to several meters, consumer does not need to see the product is forced to experience the taste of the product.
- Most powerful 4D aroma sensation to ignite shopping desire

# Large interactive screen with face recognition advertising

- 55-inch FHD high-resolution advertising delivers a shocking experience level .
- Face recognition system can accurately show for different customer groups serving different ads, and determine consumer emotional response.

# Do you think this is a vending machine?

- In fact, selling is just my additional function.
- I can accurately identify the gender, age, and mood of the customer group, recommending suitable products based on the customer group, and play the video advertisement of the corresponding customer group.
- You can also trigger a specific function (such as a special price) for a specific customer group, and also allow users to give gifts and merchandise between each other.
- Odor, games, grade points, redemption, posting, live broadcast full function, do you still think that I am just a vending machine?

Female 30 years old
